

# CDI Workshop

10:00am-11:00am

## Drivers of Outpatient Documentation

- Analyze the drivers of outpatient CDI, including the following:
- Medical Necessity
- Diagnostic & Procedural specificity
- Hierarchical Condition Categories (HCCs)
- National Coverage Determinations (NCDs)
- Local Coverage Determinations (LCDs)
- Merit-based Incentive Payment System (MIPS)
- Value Based Purchasing (VBP)
- Medicare Access & CHIP Reauthorization Act (MACRA)
- Benchmarking

11:00am-12:00pm

## Benefits of Outpatient CDI

- Discuss the impact high quality outpatient clinical documentation has on the assignment of the appropriate International Classification of Diseases (ICD) codes, Current Procedural Terminology (CPT®) codes, Evaluation and Management (E&M) level, and Ambulatory Payment Classification (APC) assignment
- Evaluate the impact high-quality outpatient clinical documentation has on reimbursement
- Discuss the Risk Adjustment Model
- Assess the outcome high-quality outpatient clinical documentation has on quality measures
- Identify ways high-quality outpatient clinical documentation can help reduce insurance claim denials

12:00noon-12:15pm

## Break

12:15pm-1:15pm

## ICD-10-CM Documentation Drivers and Case Studies

- Examine outpatient documentation to determine opportunities for improvement
- Evaluate the impact of high quality documentation on coded data

1:15pm-2:15pm

CPT Documentation Drivers and Case Studies

- Examine outpatient documentation to determine opportunities for improvement
- Evaluate the impact of high quality documentation on coded data

Total Education for CDI Workshop: 4 hours
